Dear sponsors, Trinity Christian School:

I bless you in the love of our Lord Jesus Christ. I want to thank for the letter that you sent me and the photos. The weather in Guatemala is very nice because some times it is cold or it is hot. I am very happy to be 18 years old. I am an adult and I will only be a short time at the center. It has been of great blessing for my life because I have received many gifts; I thank you for sponsoring me. The name of my community is San Pedro Yepocapa; it is a small town. They say that we live in a hole because around us there are mountains and 2 volcanoes; one is Water and the other is Fire. The Fire one scares us very often because it trembles and expels lava. What they harvest here is coffee; at this time it is when the people harvest it. They also harvest a plant called *petate* to make air blowers and souvenirs. We speak Spanish and Kaqchikel; very few speak the latter, mostly are the elders. Now they are teaching it at school. There is a river which comes from the volcano; with that water and other water springs they have a water park with pools, it is a very nice place. What do they harvest in your community? What do you do at this time? I ask that you pray for me and for my family, I thank you for everything, that all you do is of blessings in your lives. With lots of love,

Yoan Ozbeli
